Retail design architect

Ma recherche

Je recherche tout type de contrat, sur toute la région Ile de France, dans l'Architecture.

Formations

2022 : Bac +5 à University of Tehran sur Tehran, Iran
Master of Science in Architecture and Energy

10/2019 : à University of Tehran, Iran
Energy Plus Certification

06/2019 : à National Iranian Concours University
16th place in the Architecture and Energy field among 1128 participants

06/2018 : à Studio Ruydad
SketchUp Certification

06/2018 : à Studio Ruydad
Lumion

01/2018 :
Fourth Competition

2018 : Bac +3 à Hafez University of Shiraz sur Shiraz, Iran
Bachelor's degree in Architectural Engineering

11/2017 : à South Industrial Management Institute sur Shiraz
Autodesk Revit - Professional Certification

01/2017 : à Shiraz University
Third Competition
Workshop of Design and Fabrication of Qavam al-din Shirazi Jan. 2017
Third Prize Winner- held by the faculty of Art and Architecture

05/2016 : à Shiraz University
ZIBAZYAFT Competition
Third Prize Winner- held by the faculty of Art and Architecture

04/2015 : à Ashari Architects
Autodesk AutoCAD - Professional Certification

Expériences professionnelles

01/2023 à ce jour :
RETAIL DESIGN ARCHITECT chez Thebrand-tailors
Specialize in the design and construction of retail spaces, luxury brands, by combining a diverse range of

creative and technical skills.

□ ADIDAS : Champs-Élysées, Paris, France - 4000 M2

- Edit and complete drawings, construction details, sheets, and blueprints throughout all stages of the design process.
- Custom design fixtures, furniture, and signage to enhance the aesthetic appeal of the retail environment.

Elnaz PEIVAND - CV Page 2

- Conducting thorough site visits and assessments to gather necessary information for the design process.
- Effectively schedule design orders and drawing production packs, prioritizing tasks to meet project deadlines and deliver outstanding results.
- Collaborate closely with the design team to ensure seamless coordination and efficient execution of the project.
- Developing conceptual design proposals that align with the brand's vision and target market.
- Managing project budgets and timelines, tracking expenses, and ensuring cost-effective design solutions.

STRADIVARIUS : Blagnac, France - 320 M2

- Collaborating with clients to understand their specific needs, brand identity, and desired customer experience.
- Coordinating with contractors, subcontractors, and other trades to ensure smooth project implementation.
- Conducting post-occupancy evaluations and gathering feedback from clients to continuously improve design processes and outcomes.

□ UBS Work Office : Paris, France - 2400 M2

- Conducting regular site inspections to monitor the progress of construction, ensuring adherence to design plans and specifications.
- Making design modifications and adjustments as necessary to overcome unexpected challenges during the construction process.
- Providing technical expertise and guidance during the construction phase to ensure design intent is realized accurately.
- Compliance with French building codes and regulations to ensure safety and accessibility.

□ NIKE : Portugal, Japan, Canada, Netherlands, etc.

- Finalize space plans, finishes, and furniture selection to create cohesive and visually stunning retail spaces.
- Creating detailed 3D models, renderings, and visualizations to present design concepts to clients.
- Developing conceptual design proposals for the client to choose from

Skillfully curate, visualize, and present mood boards that align with the brand identity and project requirements.

- Keeping up-to-date with the latest trends and innovations in retail design and incorporating them into projects when appropriate.

□ DEMATHIEU BARD : France - 1000 M2

- Space planning and layout optimization to enhance workflow and productivity.
- Interior design implementation, reflecting brand identity and fostering a positive work environment.
- Collaboration with stakeholders, including architects and contractors, to integrate design plans.
- Compliance with building codes and regulations to ensure safety and accessibility.

05/2020 - 12/2022 :

LEAD DESIGN ARCHITECT chez Karina Co. sur Kerman, Iran

Managing all aspects of the design process, from research and ideation to creative conceptualization and design with a team. Also collaborating with stakeholders to research and develop cohesive design plans, concepts and prototypes, to ensure final design output meets the needs of clients. Handling multiple projects simultaneously and delivering on expectations within tight deadlines. Working on grand architectural projects, interior and landscape designing.

- Analyze research findings to inform design directions and results of feasibility tests through regular project reviews.
- Communicate research findings to help stakeholders make informed decision-making.
- Develop schedules, timelines and budgets for projects, collaborating with clients, contractors, asset owners, and stockholders during different stages of the designing process.
- Present design recommendations, proposals and options to stakeholders and provide feedback to direct reports and junior team members.
- Troubleshoot issues during project implementation and write daily reports for accountability and quality assurance.
- Work in collaboration with the project manager to define project goals and establish a timeline and plan to achieve them.
- Work collaboratively with other departments to ensure the success of the final outputs of the projects.

□ Second Role:

Working as a sustainable architect that focuses on building design and construction, which reduce the impact of urban development on the environment. Create buildings that require less land development, use more environmental friendly materials, and are more energy efficient.

- Determine a client's energy consumption by conducting building assessments.
- Identify opportunities for the client to reduce their energy consumption.
- Research energy-saving systems that could benefit the client.
- Analyze weather data files and perform energy modeling and simulations.
- Perform benefit-cost analysis on prospective energy efficiency measures.
- Building energy simulations with OpenStudio, Energy Plus, Envi-met, Design Builder and Climate Consultant.

03/2018 - 05/2020 :

Architectural Engineer chez Karina Co. sur Iran

Create drawings, sketches, detailed plans and 3D models to communicate design ideas to clients.

- Professional 3D designing and rendering in Autodesk Revit (BIM).
- Collaborate with other engineers and architects to develop designs.
- Review blueprints, designs, and plans created by architects or other engineers and make recommendations for changes.
- Conduct research regarding materials and techniques used in the construction of buildings.
- Conduct inspections during the construction process to ensure that construction meets national building codes and standards

Elnaz PEIVAND - CV Page 4

- Meet with clients to discuss project details and specifications
- Determine the feasibility of a design before beginning construction
- Work within teams to achieve success on several building projects, including commercial, residential, medical, educational, etc
